

DIET FLAKES

DIETARY
PURIFYING
FUNCTION

DESCRIPTION

Complementary feed for dog

A special blend of natural cereals, legumes and vegetables, an ideal fibre supplement for your dog's meals. It performs an effective dietary-purifying function. The steamed cereals and legumes improve the assimilation of nutrients, facilitating digestion; the amount of fibre increases in the intestinal canal and gently cleans it out.

COMPOSITION

Flakes of wholegrains cereals 70% (rice, barley, corn, pea, field bean), dehydrated carrot, dehydrated leek.

GUARANTEED ANALYSIS

Crude PROTEIN	10,30%
Crude FAT	1,40%
Crude FIBRE	3,10%
Crude ASH	1,50%

RECOMMENDED USE AND DOSAGE:

Feed it to your pet as a partial replacement (from 10% to 25%) of the normal daily diet. Increase up to 50% in case your dog is overweight. We recommend using the product after adding water or broth, and making plenty of fresh water available to your dog.
